

UNDESIRE RESULTS IN FX EXPOSURES - WE HELP TO PREVENT THIS.

Our **FX intelligence** has successfully been identifying major **FX trends for 22 years** and suggests **ideally-timed macro hedging orders**. Stop losing money unnecessarily - now even better supported by our AI engine. HedgeGo's purely **data-driven, AI-automated** system for **30 currency pairs** has proven **highly successful** for businesses.

WHAT WE DO: We propose ideally-timed **hedging orders** based on **medium to long-term trends** to enter or exit hedging.

India	EUR / INR

OUR CLIENTS

Deloitte

Safety Margins - The **yearly surplus** gained for your **financial result** by deploying **HedgeGo** instead of ordinary hedging or "no-hedging" approaches.

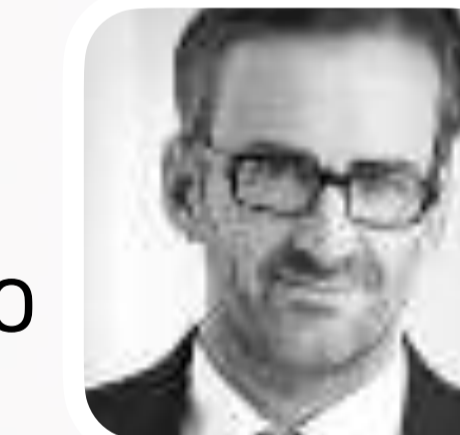

REASONS TO HEDGE

- Volatility:** Volatility of **FX markets** and **exchange rate risk** will **increase** in the coming years (see recent Ukraine crisis).
- Makro hedging:** The **identification of trends** and **simple hedging orders** based on them result in up to **10% lower costs** and lead to **better results** than comparable hedging strategies.
